

THE WEB MAVEN

BRAND GUIDELINES V1

BRAND OVERVIEW

Brand Name

The Web Maven

Meaning

A Maven is a trusted expert who possesses deep knowledge and insight.

The Web Maven exists to help businesses transform their websites from passive digital brochures into active business assets.

Brand Promise

Strategic websites that build trust, generate opportunities, and support business growth.

Brand Mission

To help ambitious businesses communicate their value more effectively online through strategic web experiences.

Brand Vision

To become the trusted partner businesses think of when they need a website that drives measurable outcomes rather than simply looking impressive.

Brand Positioning

The Web Maven is not a web designer.

The Web Maven is a strategic web partner.

While others focus on websites, The Web Maven focuses on business outcomes.

Brand Pillars

Strategy

Every decision serves a purpose.

Clarity

Complex ideas should feel simple.

Trust

Trust is the foundation of conversion.

Performance

Beautiful design must perform.

Growth

Websites should contribute to business growth.

BRAND PERSONALITY

The Web Maven is:

- Strategic
- Intelligent
- Professional
- Confident
- Thoughtful
- Insightful
- Modern
- Reliable

The Web Maven is NOT:

- Arrogant
- Flashy
- Corporate-stiff
- Trend-chasing
- Overly technical
- Salesy

BRAND VOICE

Tone

Confident but not boastful.

Professional but human.

Expert but approachable.

Direct but respectful.

Writing Principles

Speak clearly.

Avoid jargon where possible.

Focus on outcomes.

Use short, impactful sentences.

Write with conviction.

Lead with value.

Messaging Framework

Problem

Outcome

Example:

Most businesses think they need a new website.

What they often need is a better way to communicate trust and value.

That's where strategic web design makes the difference.
